### About the Allentown Park System

*The City of Allentown has more than 2000 acres, including active parks, lakes, rivers, rose gardens, passive parks, picnic areas, fishing streams, and more.*

*Founded in 1908 with the dedication of West Park, the system continued to grow and develop based on the vision of General Harry C. Trexler, one of Allentown's leading citizens. General Trexler was the father of the Allentown Parks System, and through the Trexler Trust, he continues to fund the growth, maintenance, and development of this world-class park system. Allentown citizens and visitors are enriched by his legacy today and for future generations.*
